REPORT TO ABERDEENSHIRE COUNCIL - 9 MARCH 2022

REVENUE BUDGET 2022-27

1 Executive Summary/Recommendations

1.1 This report provides details of the proposed Revenue Budget for the financial year 2022/23 and indicative budgets for financial years 2023/24 to 2026/27. The proposed budget includes a Council Tax rise of 3% which was agreed by Council on 23 February 2022. The proposed budget also contains the revenue assumptions associated with the proposed Capital Plan which is included within todays Council agenda.

1.2 The Council is recommended to:

- 1.2.1 Agree the funding package from the Scottish Government in Appendix 2, subject to Parliamentary approval of the Scottish Government Budget;
- 1.2.2 Agree the proposed revenue budget for 2022/23 as detailed in Appendix 3, including the proposed savings and planned use of reserves;
- 1.2.3 Agree the indicative revenue budgets for 2023/24 to 2026/27 as detailed in Appendix 4;
- 1.2.4 Note the financial risks associated with this budget as set out in Appendix 5
- 1.2.5 Agree that work continues to balance the future years revenue budgets as part of the Medium-Term Financial Strategy (MTFS).

2 Decision Making Route

- 2.1 The Council is required to set a balanced revenue budget for the 2022/23 financial year. The budget must reflect the planned expenditure and anticipated income for the year, and should consider all known financial resources available, including the Local Government Finance Settlement offered by Scottish Government for 2022/23, the assumed Council Tax rise, and the balances available in Reserves.
- 2.2 To ensure the adequacy of resources to deliver the Council priorities in 2022/23, a full review of all budgetary requirements and anticipated income levels was undertaken by budget holders. All changes to existing budget levels were peer challenged before final review and approval by the Strategic Leadership Team.

2.3 Savings and efficiencies have been identified both council wide and by individual services to allow for a balanced budget position.

3 Discussion

- 3.1 The ongoing exceptional operating environment which has been created by the Covid-19 pandemic continues to provide significant challenges to the Council. The past two years have seen unprecedented pressures on our ability to deliver services and generate income, despite funding provided by the Scottish Government. In addition, the Council will experience further budget pressures arising from rising inflation, commodity, and energy prices as well as increases to staffing costs following the increase in employers National Insurance contributions which takes effect from 1 April 2022.
- 3.2 These challenges have reduced the ability to generate sufficient efficiencies or increases to income and charges, therefore, to continue to deliver the Council's priorities to the agreed scope and standard of service and deliver a balanced budget for 2022/23, necessitates the use of reserves.

Local Government Settlement

- 3.3 The budget has been set within the context of the draft Local Government Finance Settlement for 2022/23 which was issued by Scottish Government in December 2021 (Appendix 2) and is currently progressing through Parliament with the intention to be passed by the beginning of March 2022. This settlement may be subject to change until the Bill is passed by Parliament.
- 3.4 The Local Government Settlement includes:
 - £887.8 million funding across Scotland for Health and Social Care, including £174.5 million for the delivery of the real Living Wage; £15 million for uprating of free personal and nursing care payments; £20.4 million for implementation of the Carers Act; £124 million to provide care at home; £20 million for Interim Care and £200 million to support investment.
 - £145 million for Additional Teachers and Support Staff.
 - Funding for 100-day commitments including the removal of Core Curriculum and Music Tuition charges and expanding the School Clothing Grants.

3.5 The Settlement allocation for Aberdeenshire Council is detailed below:

	Base Budget	Settlement	Movement
	2022/23	2022/23	
	£m	£m	£m
Revenue Support Grant Non-Domestic Rates Specific Grants (excl Community Justice)	339.900 104.867 31.639	327.288 138.786 30.745	(12.612) 33.919 (0.894)
Total General Revenue Funding	476.406	496.819	20.413
Earmarked Funding:			
Funding for Teachers Funding for HSCP			(7.288) (15.088)
Decrease in Funding			(1.963)
Reduction in Specific Grants Expenditure			0.894
Net Decrease in Funding	(1.069)		
Share of Additional £120 million			5.514
Overall Increase in Funding			4.445

- 3.6 The Council, in setting its current year budget also sets a further four indicative years budgets. It is custom and practice that a prudent flat cash value is used when reflecting the estimated General Revenue Funding for future years. Compared to the estimated income for 2022/23 the draft settlement sees the Council receive an increase in funding from Scottish Government of £20.413 million. However, of this, £15.088 million will be required to be passported to the Health and Social Care Partnership and £7.288 million of the increase relates to additional funding for teachers which will necessitate a corresponding increase in Education expenditure budgets.
- 3.7 The settlement includes a reduction in Specific Grants relating to the Early Years Expansion (£0.892 million) and Pupil Equity Funding (£0.002 million) which has resulted in a corresponding decrease to these expenditure budgets.
- 3.8 After these allocations, there is a real decrease in funding from Scottish Government of £1.069 million. Following disappointment expressed by Leaders and Cosla on the real decrease in the settlement funding, Scottish Government announced a further £120 million of funding for Local Authorities.

Aberdeenshire's share of this is £5.514 million. Whist this is welcomed, this funding is currently a one-off increase for 2022/23 only. Cosla continues to lobby for this to be baselined for future years. This funding has been excluded from future years pending confirmation.

3.9 The Settlement also advises of additional funding which has not been included in the above allocation. This includes £200 million to support investment in Health and Social Care and £7.6 million for Teachers Induction Scheme which is yet to be allocated. It also includes, £63.95 million for Expansion of Free School Meals, of which Aberdeenshire has been allocated £3.034 million, £12 million for removal of Music Tuition fees, of which Aberdeenshire has been allocated £0.633 million, and £8 million for Removal of Core Curriculum Charges, of which Aberdeenshire have been allocated £0.381 million.

2022/23 Budget Position

- 3.10 Aberdeenshire Council started the 2022/23 budget process with an out of balance position of £23.866 million as the Year 2 budget presented to Council in March 2021. This was subsequently revised following the realignment of the Revenue Support Grant and Business Rates to £6.791million out of balance as presented to Council in June 2021.
- 3.11 Following the review of resourcing requirements by budget holders some £28.154 million cost pressures were identified. These were offset and mitigated by some £11.023 million of base budget changes, because of changes to previously assumed funding requirements and estimated income levels. The revised starting out of balance position was £23.922 million, as detailed in **Appendix 3**.
- 3.12 The proposed budget includes the agreed 3% increase in Council Tax which will generate additional income of £3.764 million. This is net of £0.752 million allocated to fund the borrowing associated with the investment in the Infrastructure Fund as agreed by Council on 17 March 2021. This £0.752m will be held in reserves until the borrowing associated with the Infrastructure Fund is incurred.
- 3.13 Budget efficiencies and savings proposals to reduce the out of balance position have been identified.
- 3.14 At 31 January 2022, the Council held total reserves of £81.513 million comprising:

Total Reserves	81.513
Earmarked Reserves	50.379
Statutory Funds	20.134
Working Balance	11.000
	£m

3.15 Of the £50.379 million Earmarked Reserves, £34.2 million do not have any statutory or legal restrictions or commitments associated with them and are therefore available to be drawn down to balance the budget as required. This is a one-off funding option as these reserves are not-recurring, therefore Council is requested to instruct officers to continue work to find future efficiencies and savings to balance future years budgets.

- 3.16 A separate report is included on the agenda of this meeting to consider the Reserves held by the Council. These figures are provisional pending the finalisation of the 2021/22 outturn position which is currently forecasting an out of balance position of £4.854 million which is to be funded from the Pay Award Reserve. This reserve was created to offset any additional costs from the pay award being agreed at a level higher than the 3% budgeted for. The agreed pay award for 2021/22 was in fact, lower than 3%, enabling this reserve to be released.
- 3.17 The Council's reserves are currently higher than previous years, largely due to additional funding received from Scottish Government in 2020/21 and 2021/22 to support the recovery from the Covid-19 pandemic. This funding was one-off in nature, therefore, whilst it can be utilised to balance the 2022/23 budget, this is not a sustainable strategy to balance future years, and the Council must actively strive to find further long-term solutions and efficiencies going forward.
- 3.18 The awareness and acceptance of risk is an integral part of preparing any budget. Uncertainty around inflation rates, interest rates, available funding and changing demand for services pose daily challenges. The current issues facing the Council due to the ongoing pandemic have made the risks even more significant and have required services to adapt and change the way services are delivered and funded. The proposed budget has had to include assumptions around the services the Council are to deliver which may change going forward depending on the course of the pandemic and any further restrictions. These risks are detailed in **Appendix 5** and will be monitored by officers throughout the year and reported to Policy Committees as part of the performance monitoring.
- 3.19 The funding settlement provided by Scottish Government is for one year only. The continuation of a one-year settlement increases the assumptions required to produce future budgets beyond 2022/23 and it is proposed to maintain the prudent approach of assuming a flat cash settlement for future years. The full detailed budgets for 2022/23 through to 2026/27 are included in **Appendix 4**. The cumulative Out of Balance position to 2026/27 is estimated to be £48.04 million. This position assumes an officer's working position of an annual Council Tax increase of 3% therefore, were the increase to be lower, this would increase the out of balance position.

4 Council Priorities, Implications and Risk

4.1 This report helps deliver all six of the Council's Strategic Priorities and the key principle that underpins them of responsible financial planning.

4.2 The table below shows whether risks and implications apply if the recommendations are agreed.

Subject	Yes	No	N/A
Financial	Х		
Staffing	X		
Equalities and Fairer Duty	IIA attached as		
Scotland	Appendix 1		
Children and Young People's			X
Rights and Wellbeing			
Climate Change and			X
Sustainability			
Health and Wellbeing			X
Town Centre First			X

- 4.3 The financial implications are inherent in the report. The impact of the proposed budget on staffing may, in some instances, require staff numbers to be reduced to achieve budget savings in certain areas. The staffing implications of the savings will be assessed to determine how these can be minimised and any voluntary severance will be subject to comprehensive engagement and consultation with employees and Trade Unions in accordance with agreed policies and procedures.
- 4.4 Integrated Impact Assessments have been carried out as part of the development of the Revenue Budget proposals. A summary of the outcome of the Integrated Assessments has been prepared.
- 4.5 A summary and the full version of each Impact Assessment, and detailed breakdown of impact to protected characteristics will be made available on Aberdeenshire Council's website following the budget day announcements.
- 4.6 Given that each separate decision made when setting the budget may impact on the lives of people with protected characteristics, the importance of the cumulative impact on the decisions being taken is recognised.
- 4.7 Notwithstanding the impact on residents of Aberdeenshire, it is also recognised that reduction or changes within budgets may result in a reduction of employee numbers across some council services. Some proposals will require specific Integrated Impact Assessments to be undertaken to identify the impacts which are currently unknown.
- 4.8 An impacts assessment of the anticipated or potential impact of each individual proposal has been undertaken by relevant lead officers and signed off by relevant Heads of Service. Most proposals have identified no differential impact on people with protected characteristics or people facing socio-economic disadvantage. Several additional assessments have a neutral impact on people with protected characteristics or socio-economic factors. Further analysis is provided in **Appendix 1**.

- 4.9 The following Risks have been identified as relevant to this matter on a Corporate Level:
 - Budget Pressures (<u>Corporate Risk Register</u>) as detailed above the Council's budget will be under increasing pressure due to rising inflation, energy prices and the ongoing pandemic recovery. This risk has been mitigated during the budget setting process by consultation with directorates to identify and incorporate pressures into the proposed budget to ensure services are adequately funded. This will be monitored throughout the year, with monthly reporting to policy committees and quarterly reporting to Council. This will enable any in year pressure to be identified timeously to ensure action can be taken at an early stage.
- 4.10 The following Risks have been identified as relevant to this matter on a Strategic Level:
 - We live within our means and use public money to maximise outcomes for our communities (<u>Business Services Directorate Risk Register</u>). This budget sets out the means to which the Council can deliver its services. The deliverability of the budget will be monitored monthly as detailed above.

5 Scheme of Governance

- 5.1 The Monitoring Officer within Business Services have been consulted in the preparation of this report and had no comments to make and are satisfied that the report complies with the <u>Scheme of Governance</u> and relevant legislation.
- 5.2 The Council is able to consider and take a decision on this item in terms of general provisions conferred by the <u>List of Committee Powers in Part 2A</u> of the Scheme of Governance. A decision on this item is linked to the approval of the annual estimates and setting the Council Budgets contained within Section A.8.1 of the List of Committee Powers in Part 2A of the Scheme of Governance.

Ritchie Johnson - Director of Business Services

Outcome of Integrated Impact Assessments in Respect of the Revenue Budget

Item: 4 Page: 148

EDUCATION & CHILDREN'S SERVICES

Primary Administration Review

No impacts identified.

Class Size Maxima

· No impacts identified.

Remove Cluster Principal Teacher Role

· No impacts identified.

Children's Services Staffing

Neutral impacts for all protected characteristics and socio-economic groups. By deleting posts but retaining the savings to use to recruit workers to deliver the Scottish Child Interview Model, we will mitigate the negative impact of undermining the capacity to deliver the service. Should savings be removed from the budget, the service will face real challenges to mitigate the negative impact.

1% Efficiency Savings Against Primary School Devolved Budgets

No impacts identified.

1% Efficiency Savings Against Secondary School Devolved Budgets

No impacts identified.

Staff Schools To Formula Only With Contingency Fund For Discretionary Additionalities

No impacts identified.

Reconfigure Classes Based On Actual, Not Projected Roll

No impacts identified.

Introduction Of A Hybrid Model To Deliver Music Tuition

Negative impacts identified are as follows. Fewer pupils being able to continue onto SQA attainment. A reduced Instrumental Music Service (IMS) will mean that there are fewer opportunities for children who live in areas of deprivation. There will be fewer instructors to deliver tuition and transport issues for Music Centre activities for those who live in rural areas. Public transport, such as buses, may not have timetables that align to the programming. There may be an inability for pupils to purchase their own instrument. Mitigation includes managing delivery through the IMS redesign in order to facilitate tuition for those dedicated to develop skills and attainment in instrumental music. Digital tuition has the potential to be delivered from any location. Digital technology can assist in this area but generates challenges that need addressing. Free public transport from February 2022 may be helpful for those areas where suitable public transport is available. Encouraging families that can afford to purchase their own instruments can leave IMS stock availability for free loan.

Bennachie Visitor Centre Assistant Post

· No impacts identified.

North East Scotland Sustainable Energy (From Waste) Project: Commissioning Process

Negative impacts for older age, disability, and pregnancy/maternity protected characteristics. These groups may struggle with putting out additional bins for collection, or to cope with reduced capacity of non-recyclable waste bins due to reduced collection frequency, especially if there is additional waste created due to disability or by having more than one child. Negative impacts for the race protected characteristic as some groups may struggle to understand the information about service changes. Mitigations are that assisted collections can be requested where there is no adult in the household able to take the bins to the kerbside for collection. There is provision of additional non-recyclable waste bins to those households that fully use the recycling services available to them and meet the current criteria for additional bins. For those whose first language is not English, pictorial guides will be used as much as possible, including stickers on bins.

Reduction In Countryside Path Budget

· No impacts identified.

Reduction To Economic Development Discretionary Grants (Formerly Known As BRASS)

Neutral impacts for all protected characteristics and socio-economic groups. No negative impacts identifed. As the grant scheme is discretionary, it is not possible at this stage to identify groups which may be affected by the decision.

Move To 3-Weekly Bin Collection Cycle

Negative impacts for older age, disability, and pregnancy/maternity protected characteristics. These groups may struggle with putting out additional bins for collection, or to cope with reduced capacity of non-recyclable waste bins due to reduced collection frequency, especially if there is additional waste created due to disability or by having more than one child. Negative impacts for the race protected characteristic as some groups may struggle to understand the information about service changes. Mitigations are that assisted collections can be requested where there is no adult in the household able to take the bins to the kerbside for collection. There is provision of additional non-recyclable waste bins to those households that fully use the recycling services available to them and meet the current criteria for additional bins. For those whose first language is not English, pictorial guides will be used as much as possible, including stickers on bins.

Justification Statements

The screening section as part of Stage One of the Integrated Impact Assessment (IIA) process identifies the requirement for any further detailed assessments to be undertaken. The following areas did not require any further detailed assessment as they do not have a differential impact on people with protected characteristics or people facing socio – economic disadvantage. Justifications are provided for each one as listed in the table below.

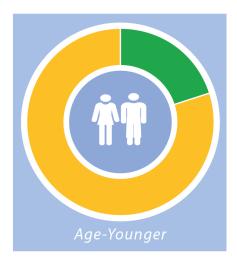

IIA Title	IIA Reference Number	Justification
EDUCATION &	CHILDREN SER	VICES
Primary Administration Review	IIA 000409	No impacts identified for groups with protected characteristics or those facing socio-economic disadvantage. In the event of any reduction in posts, HR policies would be applied.
Class size maxima	IIA 000374	The change in class size maxima would not be different to any other school within Aberdeenshire in that multi composite classes can exist with up to 25 children within them. Class sizes are based on pupil numbers and configurations that work across our school estate. No impact on health and wellbeing or any of the other assessments can be determined.
Remove Cluster Principal Teacher Role	IIA 000377	There won't be any differential impact on people with protected characteristics or facing socio-economic disadvantage because all cluster educational priorities will be addressed by colleagues across the schools.
1% efficiency savings against Primary school devolved budgets	IIA 000434	The screening section as part of the Stage One of the IIA process has not identified the requirement for any further detailed assessments to be undertaken. There will be no differential impact, as a result of the saving proposed, on people with protected characteristics. The saving will be achieved by reconfiguration of existing resources to deliver the service more efficiently and ensure the current provision is maintained.
1% efficiency savings against Secondary school devolved budgets	IIA 000433	The screening section as part of the Stage One of the IIA process has not identified the requirement for any further detailed assessments to be undertaken. There will be no differential impact, as a result of the saving proposed, on people with protected characteristics. The saving will be achieved by reconfiguration of existing resources to deliver the service more efficiently and ensure the current provision is maintained.

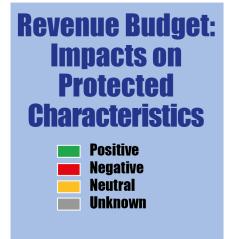

Page: 152

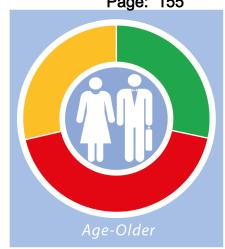

IIA Title	IIA Reference Number	Justification Page. 132
EDUCATION & CHILDREN SERVICES		
Staff schools to formula only with contingency fund for discretionary additionalities	IIA 000451	No assessments are required as Aberdeenshire have an agreed formulae for the allocation of teaching staff that is based on school roll. Therefore, all schools are equally resourced. Where there is any requirement (very limited number of cases) to consider moving outwith formulae, this will link to officer intelligence and will be within agreed processes. These may include number of spaces that are available for new families that may move into the local area and to stay within formula could be considered a risk when projected school roll figures are taken into account. Other factors may include officer intelligence on particular situations within individual establishments and a need to consider supports that will allow a school to undertake actions to ensure improvements in performance. (Again this will be in a limited number of cases and will be within agreed processes.)
Reconfigure classes based on actual, not projected roll	IIA 000382	Any reconfiguration of classes would take into account the needs of all pupils within affected classes. All pupils would continue to benefit from entitlement to education in whichever class they were placed.
COMMUNITIES	S	
Team Leader Post Saving (CLD) Community Learning & Development	IIA 000379	The savings result from the deletion of a Team Leader Post in the CLD service. This deletion will support the business redesign within the CLD service which has been undertaken and consulted on following a period of workforce planning. It will allow for a fresher outlook for our CLD service which has not been reviewed for several years. The post will be deleted and a revised management structure put in place. The post will not be backfilled and will be deleted from the structure.
BUSINESS SERVICES		
Microsoft 365	IIA 000163	The savings proposal would change the M365 licence type for up to 1,000 existing IT users. This would align the IT functionality with the job roles and will have no impact on any of the assessment areas.
Grampian Valuation Joint Board IT Service Charge	IIA 000165	This savings proposal relates to increased income for the Customer & Digital Service (C&DS) which will make more efficient use of existing IT resources. Additional revenue will offset pressures elsewhere in the C&DS budget and there will no impact on existing IT services to the council.

		Page: 153
IIA Title	IIA Reference Number	Justification
BUSINESS SER	VICES	
IT Staffing	IIA 000166	Two posts are being removed from our permanent establishment, reflecting changes in the way that services are delivered in two different areas of IT. The first is a 1 FTE reduction in the number of Infrastructure Analyst posts following the implementation of a new managed Wide Area Network contract. The new contract covers a wider scope of network services which will now be delivered by our supplier. This has been achieved at a similar cost to our previous network contract at the same time as increasing overall network capacity and operational resilience as we work in partnership with the supplier across a wider range of operations. The second is a 1 FTE reduction in the number of Customer Support Analyst posts following the implementation of a new automated chatbot on the IT Hub. This reduces the demand on our Customer Support team as well as delivering a 24x7 service for some IT user queries. This saving represents a 2% reduction in IT staffing and both posts have been vacant for at least 6 months with no significant impact on our performance and service delivery. ITMT will continue to monitor metrics such as customer service performance and network availability to ensure that this permanent reduction in our headcount does not adversely impact on our service delivery or resilience capabilities.
CDS Training Budget	IIA 000144	The Customer & Digital Service (and former IT) training budget has been consistently underspent year on year. The process of training applications is managed through a governance process involving all managers in C&DS. The adjustment reflects the increasing uptake of free courses through our Microsoft partners and a refinement based on clear evidence. There is no likely impact on those with protected characteristics or as part of the screening questions as a result of the change.
Woodhill House Phones	IIA 000455	Budget saving associated with the provision of BT Phonelines for Woodhill House
Office Accommodation Phones	IIA 000460	Budget saving associated with the provision of BT Phonelines for Offices
Office Accommodation Phones–Additional Rental Income	IIA 000461	Budget income associated with the lease to Police Scotland at Buchan House

		Page: 154
IIA Title	IIA Reference Number	Justification
BUSINESS SER	VICES	
Rebate from funding contributions to Grampian Valuation Joint Board	IIA 000452	The proposal relates to a rebate from contributions made to the Grampian Valuation Joint Board. This happens on a regular basis and has been put forward as a saving on this occasion. There is no impact on any of the protected groups, nor any implications arising from the screening questions.
INFRASTRUCT	URE SERVICES	
Bennachie Visitor Centre Assistant Post	IIA 000431	The proposal to reduce the Bennachie Visitor Centre staffing budget will have no impact upon the operation of the centre or current staffing levels. The Seasonal Fixed Hour Assistant role will continue with the costs of this post being met by LLA. There may still be additional costs associated with any enhanced hour payments for working weekends and public holidays and any hours above the 22.5 hours per week the seasonal assistant is contracted to in their substantive LLA post which it is anticipated can be met through remaining budgets in the environment team.
Reduction in Countryside Path Budget	IIA 000430	No impacts identified as we are confident that the reduction in budget can be compensated for through additional funding streams, both internal and external, so we do not envisage any impact upon equality or socio-economic impacts as the workstreams will not be impacted adversely by the proposed budget reduction.

Local Government Finance Circular No. 9/2021

Chief Executives and Directors of Finance of Scottish Local Authorities

Chief Executive, Convention of Scottish Local Authorities (COSLA)

Our ref: A35918518 20 December 2021

Dear Chief Executive/Director of Finance

1. LOCAL GOVERNMENT FINANCE SETTLEMENT 2022-23

2. NON-DOMESTIC RATES

- 1. This Local Government Finance Circular provides details of the provisional total revenue and capital funding allocations for 2022-23, as well as the latest information on current known redeterminations for 2021-22. This Circular also provides details on a range of Non-Domestic Rates measures, including the proposed 2022-23 poundage and changes to certain reliefs.
- 2. The provisional total funding allocations form the basis for the annual consultation between the Scottish Government and COSLA ahead of the Local Government Finance (Scotland) Order 2022 being presented to the Scottish Parliament. This is currently scheduled for early February 2022.
- 3. We expect local authorities to inform COSLA, and for COSLA in turn to inform the Scottish Government by no later than 21 January 2022, if they think there are any discrepancies or changes required to these provisional allocations. Redistribution(s) to address any agreed discrepancies or changes will be undertaken within the total settlement allocations set out in this Circular and not through the provision of any additional resources by the Scottish Government. The allocations are therefore provisional only at this stage, with the final allocations not being confirmed until after the end of the consultation period and the publication of the Local Government Finance Circular which will follow the approval of the Local Government Finance (Scotland) Order 2022.
- 4. The Cabinet Secretary for Finance and Economy wrote to the COSLA President, copied to all Council Leaders on 9 December 2021, confirming the package of measures that make up the settlement to be provided to local government. This Circular should be read in conjunction with that letter. The terms of this settlement have been discussed with COSLA on behalf of all 32 of its member councils.

Page: 160

- 5. The Scottish Government will work in partnership with local government to implement the budget and the joint priorities in return for the full funding package worth over £12.5 billion and includes:
 - £174.5 million for continued delivery of the real Living Wage within Health and Social Care;
 - £15 million for uprating of free personal and nursing care payments;
 - £20.4 million for implementation of the Carers Act;
 - Additional investment of £124 million to provide care at home;
 - £20 million to support Interim Care;
 - An additional £200 million to support investment in health and social care;
 - £145 million for Additional Teachers and Support Staff;
 - Maintained funding for 100 day commitments including the removal of curriculum and music tuition charges and expanded School Clothing Grant; and
 - An additional £64 million revenue that was not identified on the face of the budget as well as the £30 million of capital funding already identified to facilitate the expansion of Free School Meals.
- 6. In addition to the funding set out in this Circular it should be noted that there are a number of further revenue and capital funding streams outwith the local government finance settlement for particular policy initiatives which deliver on shared priorities and benefit local government services. Table 5.17 in the Scottish Government's "Budget Document: 2022-23", which was published on 9 December 2021, provides further details of these funding streams.
- 7. The allocations have been arrived at using the standard agreed needs-based distribution methodology and updated indicators. Any undistributed sums will be allocated in the standard way following consideration by the Settlement and Distribution Group. We have shared a separate note with COSLA providing a full reconciliation of the changes between the 2021-22 and 2022-23 Budgets and between the 2022-23 Budget and the figures in this Circular. We have also provided full details of all the revenue and capital allocations.
- 8. The various parts and annexes to this Circular, listed below, provide more of the detail behind the calculations.
- Part A: Local Government Finance Settlement Revenue: 2022-23 and changes in 2021-22;
- Part B: Local Government Finance Settlement Capital: 2022-23;
- Part C: Non-Domestic Rates for 2022-23.

The various Annexes included in this Circular are as follows:

- Annex A: All Scotland Aggregated Funding Totals 2021-23;
- Annex B: Individual Revenue Allocations for 2022-23;
- Annex C: Revised Individual Revenue Allocations for 2021-22;
- Annex D: Explanatory Notes on the Revenue Distribution;
- Annex E: Estimates of Ring-Fenced Grant Revenue Funding for 2022-23;
- Annex F: Floor calculation for 2022-23;
- Annex G: Redeterminations of Individual Revenue funding for 2021-22;
- Annex H: 2008-23 Changes Column;
- Annex I: General Capital Grant and Specific Capital Grants 2022-23;
- Annex J: General Capital Grant Flood Allocations Per Local Authority 2022-23; and
- Annex K: Total Local Government Funding Settlement 2022-23.

Page: 161

Part A: Local Government Finance Settlement - Revenue: 2022-23 and changes in 2021-22

- 9. This Finance Circular sets out the provisional distribution of revenue funding allocations for 2022-23. **Annex A** of this Circular sets out the all-Scotland aggregate totals for 2021-23.
- 10. **Annexes B** and **C** set out the distribution of the total revenue funding allocation between councils and the allocation of the different elements (General Revenue Funding, Non-Domestic Rate Income and Ring-Fenced Revenue Grants) for each council for 2022-23 and 2021-22. The basis behind the grant distribution methodology is as recommended in the report from the Settlement and Distribution Group (SDG). The explanatory notes contained in **Annex D** explain the basis behind the calculation of the individual council grant allocations.
- 11. **Annex E** gives a breakdown of the provisional individual council shares of all the ring-fenced revenue grant allocations for 2022-23.
- 12. The calculation and effects of the main floor adjustment for 2022-23, which provided councils with a maximum decrease in the funding used in the calculation of the main floor of -0.42%, is set out in **Annex F** of this Circular. The setting of the floor is in line with the revised arrangements agreed following the SDG review of the floor methodology during 2018.
- 13. This Circular confirms the continuation of the **85% funding floor** for 2022-23. The methodology compares total revenue funding plus local authorities' assumed council tax income and any council whose total support under this method falls below 85% will be topped up to ensure that all councils receive 85% of the Scottish average total revenue support per head.
- 14. This Local Government Finance Circular provides details of current known 2021-22 redeterminations at **Annex G** for the General Revenue Grant, both core settlement and COVID-19 related. It should be noted that only the core settlement additions have been included in the revised 2021-22 settlement set out in Annex A and Annex C. The COVID-19 related additional funding is a constantly changing position however the redetermination allocations for 2021-22 to be paid as General Revenue Grant as at the end of January will be included in the Local Government Finance (Scotland) Order 2022.
- 15. **Annex H** summarises the column within the settlement titled 2008-23 Changes Column.

Part B: Local Government Finance Settlement - Capital Grants 2022-23

- 16. In 2022-23 the Local Government Settlement provides capital grants totalling £679.6 million. This is made up of General Capital Grant totalling £540.5 million and Specific Capital Grants totalling £139.1 million.
- 17. **Annex I** sets out the provisional distribution of the Settlement for capital per local authority for 2022-23. The methodologies used to calculate these provisional allocations have been agreed with COSLA. Capital grants which remain undistributed are identified as such.
- 18. The provisional distribution for the General Capital Grant includes allocations for flood schemes. The allocations for these schemes is set out in **Annex J**. Where schemes have slipped and the grant paid in a prior year exceeds the grant due the scheme will show a negative value which will reduce the total General Capital Grant payable to that Council.
- 19. Annex K summarises the Local Government Finance Settlement for 2022-23.

Part C: Non-Domestic Rates for 2022-23

20. The Distributable Amount of Non-Domestic Rates Income for 2022-23 has been provisionally set at £2,766 million. This figure uses the latest forecast of net income from non-domestic rates in 2022-23 and also draws on council estimates of the amounts they will contribute to the Non-Domestic Rating Account (the 'Pool') in 2021-22. The figure incorporates the Scottish Fiscal Commission's estimate of the contributable amount and includes a calculation of gross income; expected losses from appeals; estimated expenditure on mandatory and other reliefs; write-offs and provision of bad debt together; and estimated changes due to prior year adjustments. The distribution of Non-Domestic Rates Income for 2022-23 has been based on the amount each Council estimates that it will collect (based on the 2021-22 mid-year estimates provided by councils). General Revenue Grant provides the guaranteed balance of funding. This method of allocation provides a clear presentation of the Non-Domestic Rates Income per council and transparency in the make-up of council funding.

- 21. The 2022-23 Non-Domestic Basic Property Rate ('poundage') is provisionally set at 49.8 pence. Two additional rates are levied on properties with a rateable value over £51,000 (51.1 pence) and £95,000 (52.4 pence) respectively.
- 22. The Scottish Budget 2022-23 also introduces the following policies:
 - 50% Retail, Hospitality and Leisure relief for the first three months of 2022-23, capped at £27,500 per ratepayer
 - Business Growth Accelerator relief will be expanded by making increases in rateable value due to the installation of solar panels a qualifying improvement eligible for relief from 1 April 2022
 - Enterprise Areas relief will be extended for one year to 31 March 2023.
- 23. The Scottish Budget 2022-23 maintains the following reliefs which are set annually:
 - Small Business Bonus Scheme relief, which lifts over 111,000 properties out of rates altogether as at 1 June 2021; and
 - Transitional Relief, which caps annual rates bill increases at 12.5% in real terms for Aberdeen City and Aberdeenshire offices and for all but the very largest hospitality properties across Scotland.
- 24. The following reliefs will also be maintained: day nursery relief, disabled rates relief, district heating relief, empty property relief, Fresh Start relief, hardship relief, hydro relief, mobile masts relief, new fibre relief, renewable energy relief, renewable heat networks relief, reverse vending machine relief, rural relief, sports club relief and stud farms relief. Charitable rates relief will also be maintained, however from 1 April 2022 mainstream independent schools will no longer be eligible for this relief, as recommended by the independent Barclay Review of Non-Domestic Rates in 2017.
- 25. The Barclay Review also recommended that: "To counter a known avoidance tactic for second homes, owners or occupiers of self-catering properties must prove an intention let for 140 days in the year and evidence of actual letting for 70 days." This policy will be implemented 1 April 2022, from which point self-catering premises will be required to meet these criteria. Councils will have discretion in the event of exceptional circumstances, which lead to the criteria not being met, to determine that a property can continue to be treated as a self-catering premises.
- 26. We will lay legislation to help local authorities tackle a known avoidance tactic on empty non-domestic properties. This policy will provide local authorities with the discretion, in prescribed circumstances, to restrict the awarding of 100% empty property rates relief where the occupier

has entered insolvency, compulsorily (by the court) or voluntarily. This will deliver greater fiscal empowerment for councils in advance of the devolution of empty property relief in April 2023.

- 27. NDR reliefs, like other subsidy or support measures, may be subject to the conditions set out in the EU-UK Trade and Cooperation Agreement, which in certain cases limits sectoral public subsidisation to 325,000 Special Drawing Rights (equivalent to approximately £335,000) over any period of three fiscal years.
- 28. Councils may also offer their own local reliefs under the Community Empowerment (Scotland) Act 2015.
- 29. Information on the Business Rates Incentivisation Scheme (BRIS) will be set out later.

Enquiries relating to this Circular

30. It should be noted that figures in this Circular may be marginally different from final allocations due to roundings. Local authorities should note that if they have any substantive specific enquiries relating to this Circular these should, in the first instance, be addressed through COSLA. We have given an undertaking to respond to these queries as quickly as possible. Contact details for COSLA are:

Mirren Kelly
Mirren@cosla.gov.uk

Any other queries should be addressed to the following:

Local Government Revenue Settlement and BRIS. Bill Stitt Bill.Stitt@gov.scot

Local Government Finance Settlement (Capital)
Craig Inglis Craig.Inglis@gov.scot

Non-Domestic Rates
Anouk Berthier Anouk Berthier@gov.scot

31. This Circular, along with the supporting tables will be made available through the Local Government section of the Scottish Government website at:

https://www.gov.scot/publications/local-government-finance-circulars-index/

Yours faithfully

Ellen Leaver

Deputy Director, Local Government & Analytical Services Division

EXPLANATORY NOTES ON THE REVENUE DISTRIBUTION

The explanation of each of the columns within the tables at Annex B is as follows:

Column 1 – represents the updated on-going service provision and includes the following combined information: (i) the updated Grant Aided Expenditure (GAE) assessments; (ii) the revised Special Islands Needs Allowance (SINA); (iii) each council's individual share of the ongoing revenue grants which have been rolled up into the core local government finance settlement; (iv) each council's share of all the baselined redeterminations since Spending Review 2007; and the previous loan charge adjustment.

Column 2 – is the new combined total, non-ring-fenced, changes in general provision resulting from Spending Reviews 2007, 2010, 2011, 2013, 2015 and budget revisions for 2016 - 2023 allocated pro-rata to each council's share of TEE as agreed with the Settlement and Distribution Group (SDG).

Column 3 – represents the updated share of the loan charges support for outstanding debt and the same level of on-going PPP level playing field support. The methodology for calculating Loan Charge Support (LCS) and support for Public Private Partnership (PPP) projects (level playing field projects only (LPFS) is set out on Annex H of Finance Circular 2/2011.

Column 4 – is the main floor adjustment which has been calculated using the revised methodology agreed following the 2018 review.

Column 5 – this is the net revenue expenditure recognised by the Scottish Government and represents the sum of columns 1 to 4.

Column 6 – is the assumption of the amount of Total Estimated Expenditure to be funded from the council tax. Any changes are as a result of buoyancy or projected numbers of properties, as well as the estimated additional council tax income to be collected and retained by each local authority as a result of the changes to bands E to H.

Column 7 – is each council's estimated share of the on-going Ring-Fenced Grants for Gaelic, Pupil Equity Fund (PEF), Criminal Justice Social Work, Early Learning and Childcare, and Inter-Island Ferries.

Column 8 – is each council's share of the estimated non-domestic rate income which has been distributed proportionately on the basis of council's 2021-22 mid-year income.

Column 9 – is the balance of funding provided by means of general revenue funding and is calculated by deducting columns 6, 7 and 8 from the Total Estimated Expenditure in column 5.

Column 10 – represents the total revenue funding available to each council in 2022-23.

Column 11 – is the 85% floor adjustment which has been calculated to meet the Scottish Government's commitment to ensure that no Local Authority receives less than 85% of the Scottish average per head in terms of revenue support.

Column 12 - is the revised total funding including all the changes and the 85% funding floor adjustments.

Notes: These figures represent the best estimates used in the calculation of the 2022-23 local government finance settlement, including the calculation of the Floors. The actual sums payable will be notified to the relevant Policy Team.

PEF allocations for 2022-23 are still being prepared by the Scottish Government. The figures refer to local authority PEF allocations in the 2021-22 financial year, less the one-off Pupil Premium which will not be repeated in 2022-23.

The distribution of the Inter-Island Ferries has also necessarily used estimated figures and currently excludes £1 million previously paid in respect of Orkney Transport.

NET EXPENDITURE/(INCOME)	20,947	31,189	40,190	48,040

Risks

Risk	Detail
Budget	Due to the nature of budget setting and uncertainties surrounding future
Assumptions	events, budget assumptions form an inherent part of the process. All
	assumptions carry a degree of risk that, should the actual circumstances differ
	from the assumption, there may be a resultant budgetary variation.
Local	The Scottish Government have again, provided a one-year settlement for
Government	2022/23. This provides risk and uncertainty around future years budgets and
Grant Settlement	inhibits the Council's ability to accurately plan ahead. This risk has been
	mitigated by assuming a flat cash position in future years in relation to the
	Revenue Grant Funding. A 1% increase in this funding would generate
	approximately £5m additional income. Conversely, a 1% reduction in funding
CarrailTarr	will reduce the assumed income by £5m.
Council Tax	The Council Tax cap was removed by Scottish Government for 2022/23
Increase	enabling Council's to increase the Council Tax in their area at their discretion.
	The proposed revenue budget includes an Officer assumption of an annual 3% Council Tax increase for future years. This assumes there is no reinstatement
	of the cap by Scottish Government. A 1% reduction in the Council Tax increase
	would result in a reduction in income of around £1.5 million.
Pay Award	This budget assumes that the Pay Award put forward in December 2021 for
, ay / wara	Local Government and Teaching staff will be accepted and implemented. Pay
	inflation has been assumed for 2022/23 and future years at 3% pa. At the time
	of writing, the Teachers Pay Award remained unsettled, therefore there is a risk
	that the final agreement is higher than the amounts allowed for in the proposed
	budget. In addition, Public Sector pay awards for 2022/23 onwards will also be
	decided by Scottish Government as part of the national pay discussions. An
	agreement of over 3% would result in a budget pressure which would require
	to be funded in-year. An additional 1% would result in a budget pressure of
	around £3.5 million. In the absence of additional Scottish Government, any
	additional pay awards would require to be funded from Reserves.
Inflation	Inflation is at a high level and expected to continue to increase in the short
	term. The budget has been prepared on the basis of known contractual
	inflation rates. Should general inflation continue to increase and be reflected
	in an increased cost of goods and services, this will cause additional pressure
T	on the revenue budget and the services the Council can afford to provide.
Treasury	Treasury Management involves identifying and accepting a number of risks and
Management	assumptions. These include:
	interest rates for borrowing and investing
	market conditions
	timing of borrowing
	levels of cash balances
	timing of the delivery of the Capital Plan
	tilling of the delivery of the Capital Fian
	Uncertainty in the financial markets and interest rates would result in any
	adverse movements impacting on the Loans Fund budgets and the Council's
	ability to deliver its Capital Plan.
Levels of Reserves	It is prudent for the Council to hold a general Working Balance reserve to
	provide for any unexpected expenditure that cannot be managed within
	existing in year budgets. This expenditure should be one-off in nature and
	result from an extraordinary event. For a number of years, the General Fund

Risks

Risk	Detail		
	Working Balance Reserve has been maintained at £9 million, with any		
	reductions being replenished in subsequent years.		
	In addition, a number of other earmarked reserves are held which are		
	identified for specific purposes and drawn down as the expenditure is incurred.		
	The Council currently hold larger than normal reserve balances mainly due to		
	additional funding received from Scottish Government to support recovery		
	from the pandemic. These reserves are one-off in nature and therefore these		
	should not be relied upon to fund general Council expenditure.		
Covid-19	The impact of the pandemic continues to pose significant financial risks to the		
Pandemic	Council. It has resulted in additional service expenditure and reduced the		
	Council's ability to generate income or achieve savings. These pressures will		
	have knock-on impacts for years to come. The wider economic and societal		
	impact of the pandemic will continue to pose challenges to the Council in terms		
	of service pressures and how services are delivered.		
EU Exit	The UK left the European Union on 31 December 2020. There remains		
	uncertainty in relation to the impact of the UK exit from the EU on the		
	operation of the Council including the potential increase in costs of goods and		
	services and availability of the workforce.
