#### 4.4. Evidence

Type	Source	It says?	It Means?
Other Evidence	Lived Experience Forum and Network	The voice of lived experience continues to be embedded across the work of TP&I and it's partners.	Those with lived experience can highlight areas of improvement, inform and co-produce service redesign, policy and practice. The input of those with lived experience, including young people, has been used to develop the Aberdeenshire Child Poverty Action Report and identify priorities for Tackling Poverty & Inequalities.

#### 4.5. Information Gaps

Those children and young people who are part of Local Voices participate in informing decisions and those we can reach through youth groups and our third sector and other Aberdeenshire Council services however we recognise this does not necessarily reach a wider range of voices of children and young people.

#### 4.6. Measures to fill Information Gaps

Measure	Timescale
Continue to expand the Aberdeenshire Lived Experience Network (ALLEN) which is formed of third sector partners and Aberdeenshire council services who work with more marginalised or less easy to reach groups and individuals. #### 4.7. Accounting for the Views of Children and Young People

Young people form part of our 'Local Voices' lived experience forum and contribute to discussion about service improvement.

In September 2022 TP&I funded an 'Over2Youth' event which was developed and delivered by youth groups from central Aberdeenshire, highlighting issues of inequalities important to them and that impact on their lives. They are now continuing this work to develop actions to make changes.

## **4.8. Promoting the Wellbeing of Children and Young People**

Article 12 - Respect for children's views:

Children have the right to give their opinions freely on issues that affect them. Adults should listen and take children seriously.

We recognise that taking a right's-based approach is key to embedding our practice of working with those with lived experience as partners which will ensure services and activities support young peoples wellbeing.

Tackling Poverty & Inequalities allocate funding to a range of services and third sector partners to ensure children young people and their families have positive outcomes which improve and promote wellbeing. All funded projects take makes safeguarding a priority as part of their practice.

## **4.9. Upholding Children and Young People's Rights**

By embedding Children's Rights into our practice we provide support and promotion of young people's wellbeing through inclusion, participation and the importance of children and young people co-developing services and opportunities which meets their needs.

## **4.10. Overall Outcome**

No Negative Impacts Identified.

The children and young peoples' rights and well being implications are likely to help towards closing the inequalities gap and support improved quality of life, which may contribute to children and young people living a poverty free life in adulthood.
